WELLNESS TOOLKIT

WELLNESS SCAVENGER HUNT

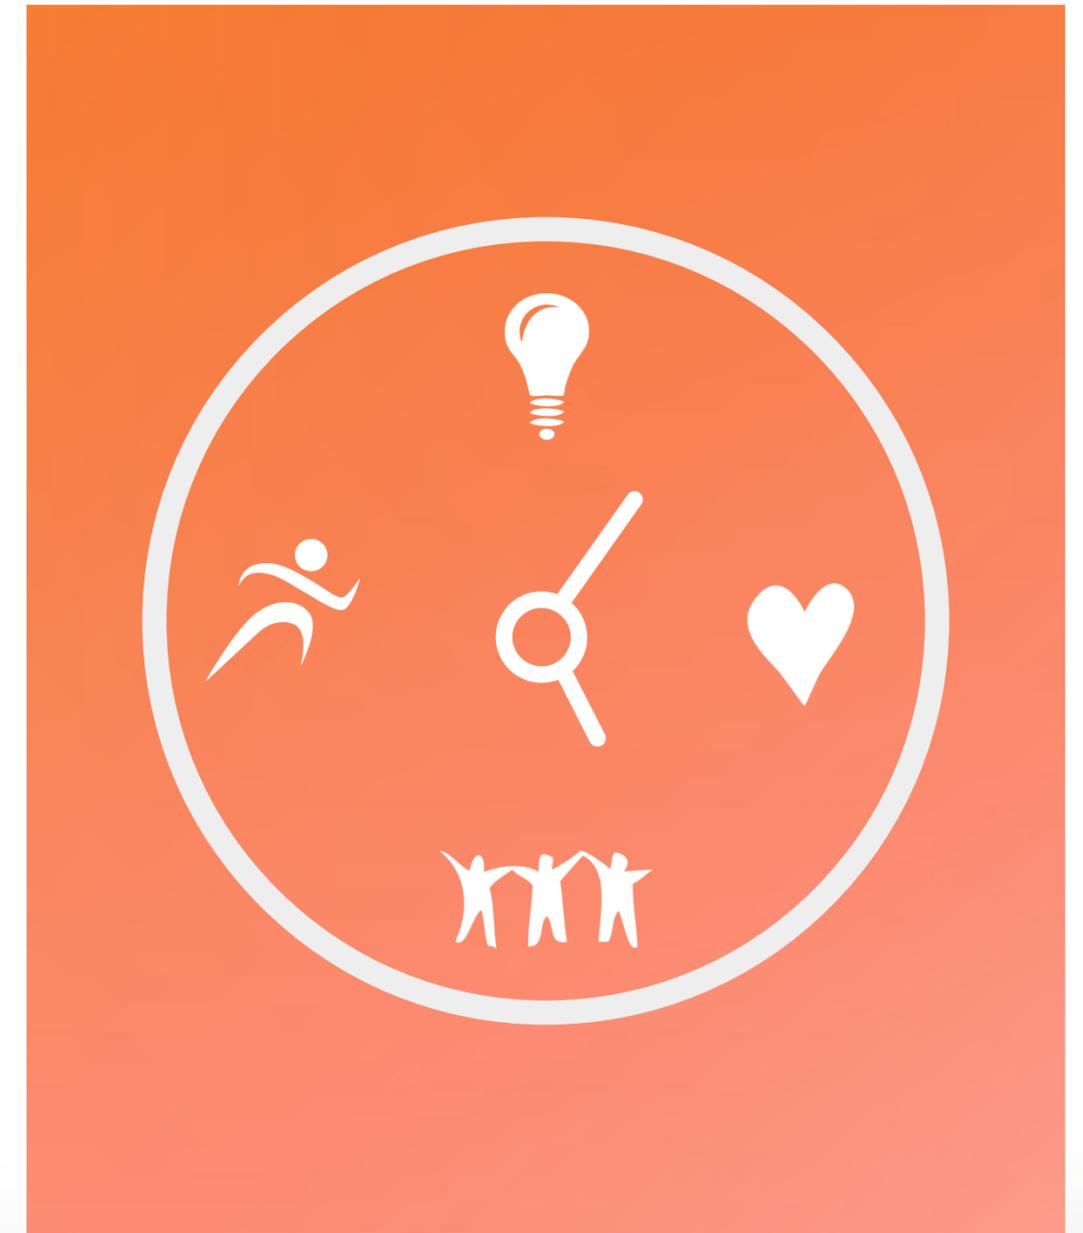

This scavenger hunt is designed to familiarize you with the various wellness resources on campus. Clues include departments and unique spaces on campus. Teams will get points for every clue they get correct and additional points for documenting that they visited the actual location!

TIME MANAGEMENT ACTIVITY

This activity is meant to help students to understand the importance of time management by helping students explore different methods that work for them. This activity will walk students through the importance of finding a calendar that works for them, scheduling non-negotiables like class or work, and making sure to block off time for other priorities like student clubs, rest, and fun! Students will also be encouraged to reflect on how they are scheduling their time to ensure it aligns with their values and priorities, as this can help enhance overall wellbeing and satisfaction.

ALCOHOL 101

This pre-recorded presentation is a crash course about alcohol use and harm reduction which explores: An introduction to the topic, Laying the foundation, Possible harmful outcomes, caring community, and campus resources.

SELF CARE STARTER KIT

This series of videos is meant to help students expand their knowledge and understanding of self-care and wellness. The presentation is broken down into four shorter videos including: Wellness and the connection to student life, Stress and how understanding it can make a difference, Self-care and finding what works for you, and Goal-setting and resources.

SELF CARE FORTUNE TELLER ACTIVITY

This activity is meant to encourage students to think about self-care and the myriad of self-care strategies they use (or will use) to support themselves throughout their college experience. Having a personalized list -- or in this case fortune-teller -- of self-care practices can be a helpful tool for maintaining a self-care routine even when times are tough. Note: this activity can be facilitated with or without technology.

MENTAL HEALTH 101

This presentation is a crash course on mental health and provides some simple tips for caring for yourself and those around you. The presentation is broken down into several shorter videos that cover: mental health and mental illness, college health statistics, signs of distress, and How to help a friend.

THE PLEASURE GAP PODCAST

Dive into one of our [Any Questions podcast](#) episodes, [The Pleasure Gap](#), where Maggie and Nick explore media's representation of pleasure in our society, share their and their friends experience with the pleasure gap, our current sex education, and how we can be better sexual partners.

TRUE OR FALSE? THE SEXUAL HEALTH EDITION

This game quizzes students on Sexual Health knowledge using a True or False format. This can be played in teams or individually. This can be facilitated with technology (projected slides) or without technology (reading the prompts).

SEXUAL HEALTH 101

This pre-recorded presentation is a crash course in sexual health and explore: Sexuality and Sexual Health, Consent and Communication, Sexually Transmitted Infections (STIs), Pregnancy Prevention, Safer Sex, and Campus Resources.

BIRTH CONTROL Q&A

This Birth Control Q & A was recorded as part of Sex Week at Maryland on April 14, 2020. This presentation includes nine shorter videos, each covering one student generated FAQ, with a total run time of about 20 minutes.

QUEER SAFER SEX WORK SHOP

This Queer Safer Sex Workshop was recorded as part of Sex Week at Maryland. This presentation includes five shorter videos with a total run time of about 40 minutes. Topics covered include: Sexuality and Sexual Health, Consent, STIs and Safer Sex, Sex During a Global Pandemic, and On and Off-Campus Resources.

GUIDED MEDITATION

Settle in and enjoy a pre-recorded meditation from University Health Center staff. This meditation practice is customizable, allowing facilitators to choose the length of time spent on the practice itself, along with guidance on how to lead an optional follow-up reflection. This meditation works well as a stand-alone wellness session, or as a complement to any class lesson plan or meeting agenda.

LATE NIGHT SNACKING

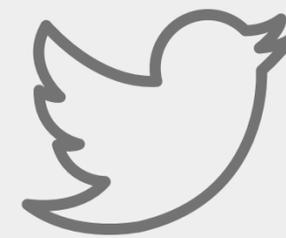

Late night snacking is often deemed “bad” by many college students but in reality a late night refueling is often a good thing and can lead to better sleep, better grades and more energy the next day. Read and discuss a Peer Nutrition Coach’s blog post to better understand how to get the most out of your nighttime (anytime) snacks!

Health Promotion & Wellness **SERVICES**

- STI Testing
- Stress Management Consultations
- Smoking & Vaping Consultations
- Sexual Health & Birth Control Consultations
- Alcohol & Other Drug Consultations
- Free Safer Sex Materials
- Peer Nutrition Coaching
- Meditation
